

VISION, MISSION & OBJECTIVE

Vision

To work on behalf of the world's oil and gas producing companies to promote responsible and profitable operations.

Mission

- To represent the interests of oil and gas producing companies to international regulators and legislative bodies in best practices of offshore support vessels operation;
- To liaise with other industry associations globally and sharing experiences, debating emerging issues and establishing common ground to promote cooperation, consistency and effectiveness; and
- To pursue HSSE excellence, ensuring no harm to people, assets and the environment. Facilitate continuous improvement in Offshore Support Vessels engineering and operations.

Objective

Our objectives are to ensure safety at sea, prevention of human injury or loss of life, and avoidance of damage to the environment, in particular, to the marine environment, and to property by:

- Providing safe practises in vessels operation and creation of a safe working environment;
- Assessing the risks to vessels, personnel and the environment arising from vessels operations; Hazard Identification, Risk Assessment and Risk Control (HIRARC) is therefore introduced to the system.
- Continuously improve safety management skills of personnel ashore and aboard vessels, including preparing for emergencies related both to safety and environmental protection.
